ares indicated that the completed census would show the majority of the population to be city dwellers.

For the last 10 years rural growth was but one-third as great as it was in the previous decade, but the cities almost maintained their rate of growth, getting five new inhabitants from 1910 to 1920 for each six added during the preceding 10 years. All population centers, even the small county hamlets and towns, showed Smashes Pennant Chasing a greater proportionate increase than Team to Clean Up Baseball the purely rural districts. The greatest increases, however, were by cities While the bureau attempts no ex-PROBE TO BE WIDENED TIRED OF DOD planation of the reasons for the in creasing migration to the cities each year during the last decade, presum ably higher wages, shorter working
